A pampering programme for all the senses and is considered a healing treatment in Hawaii. I accompany this massage with authentic Hawaiian rituals, Hawaiian music and my singing. It was primarily performed to ease the transition to new phases of life. The massage is therefore particularly recommended for future changes, wishes, birthdays or before a wedding. Fragrant, warm oil, Hawaiian rhythms and grips that flow through the whole body from head to toe like gentle waves. Mobilisation and stretching of the joints are reminiscent of the light and joyful movements of the hula dance.
